Projects

Covid-19 Tracker
JAN 2020 - FEB 2020

It is one of the most complex projects I've worked on. Main part of this project was to gather data. I've used NodeJS + Axios to scrape data from various websites later storing it into csv/json files and HBS/Handlebars for front-end Routing.

Weather UI
APR 2020 - APR 2020

Weather UI is made using NodeJS + HBS with the help of some weather and geocoding APIs to get weather Information.

Go Paperless
JUN 2020 - JUL 2020

It is an online examination web platform. I've created this platform in 1 month for my final year project. Tech stack used is MongoDB, Redis (For JWT Tokens), NodeJS, Express.

Poke Stream

OCT 2020 - NOV 2020

Poke Stream is a streaming platform exclusively to stream Pokémon seasons. It was made using Flutter, Firebase (Push Notification, Analytics and simple key-value pair data), NodeJS + MongoDB for Episode Details API. (I've created this project in 3 weeks with no prior experience with flutter/dart),

Interests

In my free time, I like reading self-improvement books, manga and watching sci-fi/geek shows, anime series. I watch LTT, live overflow, Ted Talks and other educational & tech YouTube channels. I also like to get my hands-on newly released version of many libraries and frameworks.
